

GG06C

LOADER ARTICULATED CABIN

The GG06C is equipped with a 0.3 m³ bucket, making it perfect for loading and transporting materials of various kinds. With a load capacity of 600 kg, this loader easily handles heavy loads, ensuring high efficiency and precision in work without compromising stability. The 25 HP Perkins engine provides not only sufficient power for performing various tasks but also excellent fuel efficiency. Perkins is a brand trusted by users worldwide for its reliability and durability. With this engine, the GG06C loader is ready to tackle even the most demanding tasks, offering savings on operating costs.

Despite having a cabin, the GG06C's dimensions remain highly compact, making it easy to maneuver in narrow spaces. With a length of 3325 mm, a width of 1155 mm, and a height of 2360 mm.

■ Specification

Bucket capacity	0.3 m. ³
Waga maszyny	1470 kg
Engine power	25 HP
Load capacity	600 kg
Engine	Perkins 3-cylinder
Tire size	27*8.5-15TL
Hydraulic Pump	PWG Italy 36L per minute

■ Working Range

Lifting height	2.6 m.
Travel Speed	18 km/h

■ Dimensions

Length	3325 mm
Height	2360 mm
Width	1155 mm

■ Additional equipment (for reference)
