

GG1100JC

CRAWLER EXCAVATOR CABIN

The GG1100JC mini excavator is powered by a Kubota engine delivering 15 HP, which guarantees not only excellent power but also fuel efficiency. The Japanese engine quality ensures reliability and longevity, making the GG1100JC the perfect choice for various construction tasks, both in urban environments and challenging terrains.

The GG1100JC offers an impressive working range, making it an extremely versatile machine. With a digging depth of 1650 mm and a digging height of 2610 mm, the mini excavator can handle a variety of construction tasks, from excavation and land leveling to work in hard-to-reach places. The 360° rotation radius provides full freedom of maneuver, enabling precise work without the need to reposition the machine.
