

GG 1900

TELESCOPIC LOADER

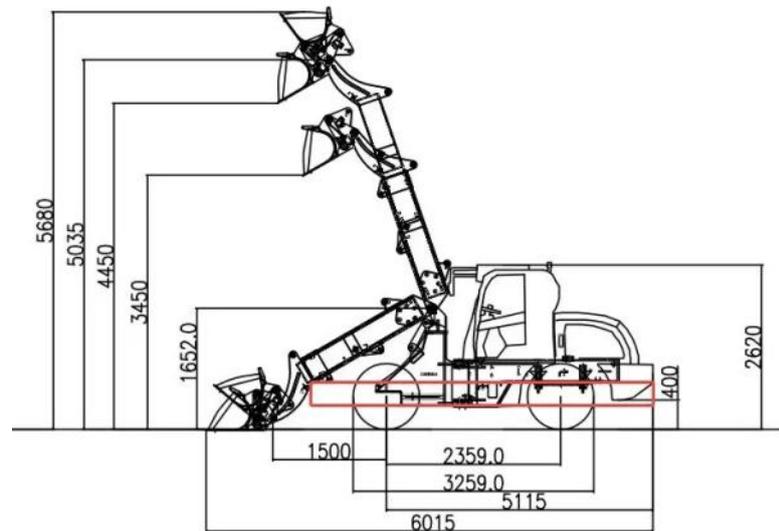

The GG1900T is equipped with a Yuchai engine with 61 HP (45 kW), providing excellent working power for performing various tasks. Thanks to this power, the telescopic loader handles heavy loads with ease and allows for fast and efficient work. The installed engine is also highly reliable, which contributes to the machine's longevity. Its performance enables the execution of tasks with large loads, making the GG1900T an exceptional work tool in demanding environments.

The GG1900T offers an impressive load capacity of 1900 kg, making it an ideal solution for transporting heavier materials. Additionally, the bucket capacity of 0.8 m³ ensures high efficiency in loading and unloading materials. The telehandler also features a maximum lifting height of 5680 mm, enabling precise operations at greater heights, as well as a wide working range.

■ Specification

Engine Model	Yuchai
Total Machine Weight	4200 kg
Pressure	16 Mpa
Steering System	Articulated hydraulic steering
Hour Meter	✓
Work Light	LED
Steering Wheel	Adjustable
Braking System	Hydraulic disc brake
Rated Power	61 KM 45 KW
Load Weight	1900 kg
Fuel Tank Capacity	60 L
Drive System	Four-wheel drive
Tire Size	23.5/70-16
Rear Camera	✓
Mechanical Joystick	✓

Ground Clearance	400 mm
Distance from Front Axle to End of Equipment	1500 mm
Minimum Height with Boom Lowered (lower)	1652 mm

■ Working Range

Maximum Speed	20 km/h
Bucket Capacity	0.8 m ³
Mid Lifting Height	4450 mm
Wheel Diameter	920 mm
Maximum Lifting Height	5680 mm
Minimum Working Height	3450 mm

■ Main Dimensions

Total Length (with equipment extended)	6015 mm
Total Height (in folded position)	2750 mm
Wheelbase	3259 mm
Distance from Rear Axle to End of Machine	2359 mm
Basic Length (without equipment)	5115 mm
Width	1900 mm
