

GG800NX

CRAWLER EXCAVATOR

The heart of the GG800NX is a modern Gunter Grossmann Diesel engine, compliant with Euro 5 emission standards, ensuring high performance and environmentally friendly operation. With a rated power of 8.6 kW at 3600 rpm, it guarantees reliable performance in all conditions. The advanced Wanye Hydraulic system, with a pressure of 16 MPa, combined with Dali motors, ensures smooth and dynamic operation, while the travel speed of 1.5 km/h allows for easy movement on the construction site.

Due to its compact dimensions (length 2770 mm, width 930mm, height 2100mm), the GG800NX mini excavator is extremely agile and easy to transport, while its solid construction ensures durability and reliability for years. This is the perfect solution for construction, landscaping companies, and individuals looking.
