

2.5T 3M DIESEL - ROTATOR

The diesel drive, based on the XINCHAI EURO 5 engine with a power of 44.8 KW and 3 cylinders, guarantees uninterrupted power with minimal fuel consumption. With a fuel tank capacity of 60 liters, the forklift can work for extended periods without the need for refueling. Users can count on true efficiency in all conditions, and the working speed of 17-19 km/h increases the pace of operations.

One of the key features of this model is the rotator, which allows for 360-degree rotation of loads. This solution not only increases work efficiency but also enables precise placement of goods in hard-to-reach locations. The forklift with a rotator allows for easy and precise rotation of loads, enhancing versatility and work efficiency. Our forklift with a rotator, offering a load capacity of 2500 kg and a lifting height of 3 meters, is the ideal solution for those who require maximum versatility. The solid construction and high-quality materials used in the production.

■ Specification

Rotator	Yes
Side Shift Forks	Integrated
Load Capacity	2500 kg
Tire Type	Pneumatic
Brake	Hydraulic Pedal
Engine	XINCHAI EURO 5
Engine Power	44.8 KW
Fuel Tank Capacity	60 L
Weight	3680 kg
Drive	diesel
Mast	duplex
Transmission	Automatic
Battery	12V 80Ah
Number of Cylinders	3
Engine RPM	2400

■ Operating Range

Travel speed	17/19 km/h
Max. Pulling Force	21/15.2 KN
Speed with Load	450/550
Minimum Turning Radius	2240 mm

■ Dimensions

Length	2600 mm
Height	2070 mm
Width	1170 mm
Fork Size	1200mm x 120mm x 40mm
