

3T 3M CAB

INTERNAL COMBUSTION FORKLIFT

The Günter Grossmann 3000kg Diesel Forklift with Cabin is a reliable tool for work in all conditions. Powered by a three-cylinder XINCHAI 3E22YG51 engine with 44.8 kW at 2400 rpm, it ensures excellent performance and fuel efficiency. The nominal torque of 210 Nm at 1600–1800 rpm guarantees smooth and dynamic operation.

With a 3000 kg capacity and a lifting height of 3 m, this model is perfect for warehouses, logistics centers, and construction sites. The duplex mast ensures stability and safe operation even at maximum height. With a minimum turning radius of 2400 mm, the Günter Grossmann forklift is highly maneuverable, even in tight spaces. The 19 km/h speed allows for efficient movement in warehouses and loading areas. Thanks to the 60L fuel tank, you can expect long working hours without the need for frequent refueling. The cabin is designed with ergonomics and operator protection in mind.
