

## 3T 3M ROTATOR DIESEL

Starting with the basics, this forklift is powered by a XINCHAI EURO 5 diesel engine, providing substantial power and ensuring compliance with environmental protection standards. The engine with a power of 44.8 kW and 2400 rpm enables the device to reach speeds of up to 18/19 km/h, which is extremely useful in dynamically changing warehouse or construction site conditions. With a load capacity of up to 3000 kg and a lifting height of up to 3 meters, it makes it an ideal solution for intensive use.

This forklift features massiveness and stability thanks to its weight of 4270 kg, allowing safe lifting and transportation of heavy loads. The rotator, incorporated into the design, gives the operator the ability to easily and precisely maneuver, and combined with a minimum turning radius of 2400 mm, significantly facilitates movement in tight spaces. Additionally, the integrated side shift forks support the seamless handling of various types of loads, enhancing the functionality and versatility of the device.

### ■ Specification

Rotator	Yes
Side Fork Shift	Integrated
Load Capacity	3000 kg
Tire Type	Pneumatic
Brake	Hydraulic Pedal
Engine	XINCHAI EURO 5
Engine Power	44.8 KW
Fuel Tank Capacity	60 L
Weight	4270 kg
Drive	diesel
Mast	duplex
Transmission	Automatic
Battery	12V 80Ah
Number of Cylinders	3
RPM	2400

### ■ Operational Range

Travel speed	18/19 km/h
Max. Towing Force	20/156 KN
Speed with Load	440/480 mm/s
Min. Turning Radius	2400 mm

### ■ Dimensions

Length	2900 mm
Height	2090 mm
Width	1230 mm
Fork Size	1200 mm x 120 mm x 40 mm
