

2.5T 3M HYUNDAI

CABIN DIESEL

The J25 Diesel Forklift with Hyundai Engine and Cabin is a modern solution that combines powerful performance with excellent operator protection, making it an essential tool for daily operations in warehouses and construction sites. With a nominal load capacity of 2500 kg, this forklift handles demanding tasks with ease, allowing for efficient movement of heavy loads.

The forklift is powered by the DM02VB engine from the renowned Hyundai brand. It is a four-cylinder unit with a nominal power of 63 hp, providing high efficiency and reliability during prolonged use. The engine reaches a maximum speed of 2600 rpm, delivering dynamic acceleration and the power needed to tackle inclines with a maximum slope of up to 20%. With a fuel tank capacity of 60 liters, the forklift operates for long hours without the need for frequent refueling, and its maximum speed of 19.5 km/h ensures that tasks are completed quickly and efficiently.
