

3T 3M HYUNDAI

CABIN DIESEL

The forklift has a nominal lifting capacity of 3000 kg, making it an ideal choice for various applications in warehouses, construction sites, or logistics centers. The duplex mast with a lifting height of up to 300 cm ensures efficient stacking and handling of loads, while the integrated side-shift fork allows precise maneuvering in narrow spaces.

One of the key advantages of this forklift is the latest generation engine from the renowned manufacturer Hyundai, model DM02VB. With four cylinders and an output of 65.26 hp, the engine ensures not only excellent performance but also reliability in all conditions. Notable specifications of the forklift include a minimum turning radius of 2300 mm and a maximum climbing ability of 20%. The lowered mast height of 1995 mm and a total length of 2595 mm make the forklift highly maneuverable and easy to navigate even in tight spaces.

■ Specification

Model	J30 3T 3M CABIN
Load Capacity	3000 kg
Mast	duplex
Brake	Hydraulic Pedal
Engine	DM02VB (HYUNDAI)
Engine Nominal Power	63 hp
Fuel Tank Capacity	60L
Weight	4420 kg
Lifting Height	3 m
Tire Type	Pneumatic
Battery	12/80 V/AH
Number of Cylinders	4
Engine RPM	2600

■ Operating Range

Travel speed	19.5 km/h
Lifting Speed with Load	490 mm/s
Mast Tilt Angle	6/12
Minimum Turning Radius	2300 mm
Maximum Gradeability	20%
Rear Tire	6.50-10 NHS
Front Tire	28x9-15 NHS

■ Dimensions

Length	2550 mm
Height of the Upper Guard	2090 mm
Width	1230 mm
Wheelbase	1600 mm
Mast Height at Maximum Lift (with Backrest)	4015 mm
Fork size	1200mm x 120mm x 40mm
Lowered Mast Height	1995 mm
