

W500

DUMPER

The W500 dumper is equipped with an American B&S engine with 10.0 HP, providing excellent power and reliability in demanding working conditions. The engine delivers enough power to transport loads up to 500 kg, making this dumper an exceptionally effective tool for transporting materials on construction sites or in gardening.

The W500 dumper is characterized by compact dimensions that make it easy to maneuver in tight spaces. The machine length is 1734 mm, width 857 mm, and height 1224 mm, allowing it to move comfortably over the terrain, even in restricted areas. The track width is 180 mm, which further enhances stability and allows it to move on uneven surfaces. The W500 dumper features an efficient hydraulic pump with a flow rate of 11.5 L/min, ensuring fast and efficient material.

■ Specification

Weight	423 kg
Engine	Amerykański B&S Engine 10.0hp
Transmission system	Hydrostatic
Load capacity	500 kg
Hydraulic pump capacity	11.5 l/min
Start system	Electric

■ Dimensions

Length	1734 mm
Width	857 mm
Height	1224 mm
Track width	180 mm
